What's been going on:

Easter weekend is just over and spring is starting – spring is the time of hope! So far there isn't so much to see, but beneath the ground and in the branches of the trees, spring is bursting with life. That's a bit how it feels in Brunnen right now. A couple of people have joined the community and connected but we haven't seen anyone come to faith yet. But several people who are not Christians or active in their faith have joined both worship and fellowship events. It's exciting to see and we really long for that day when we can have a baptism or confirmation

of baptism—when the things going on beneath the surface can bloom and be visible.

Last Sunday (April 7th) we went through the last part of the strategy planning process we've worked on during the spring term. Our planning was focused on the fall and future. We took time to listen to what God wants with us as a Church and as people. We also prayed for each other that we will grow in our faith. A big part of what we heard was that we don't need to be stressed about not getting further than we would like, but rather realized that we need

to build a stronger community within Brunnen so that we have something to invite others to when we meet them in Brunnbo. So that's what we will focus on next term.

Thanks & Prayer:

- We know several people who want to move to Brunnbo but it's hard to find a place. Pray for openings for rental apartments or for someone who would like to buy housing and let other's rent.
- Prayer for the planning of the block party and children's activities.
- Give praise for people's openness to us as a church.

What are you guys doing next?

The planning of this year's block party has started and like last year we need your help. It's a little earlier this year, June 15th. We need people to come and have coffee or help with different things like grilling or looking after the children jumping in the blown-up castle or other things. We also need people to pray for us, both before and during the event. Baked goods are also welcomed. Contact Sara Möller when you've decided what you can help with so that she can coordinate all the volunteers, preferably before May 15th: sara@brunnen.cc or 0739-971368.
