CHURCH  
THROUGH  
COMMUNITY

Brunnen becomes a congregation on December 14, 2014!

## April 2015 Newsletter

### What's been going on:

On Dec 14, 2014 Brunnen became a legal church in Sweden!!! What an exciting day! 16 people became members and 26 people (including kids) are a part of the congregations life and ministry. This is a great way to start the new year, with new hopes. Of the 26 people in Brunnen 18 of them are actively serving. It is rather amazing that a church of 16 members has 18 active. That is what we want to see: people's faith being lived out!

We have also seen our Alpha Marriage Course and Alpha Course bring people from the area into the community of Brunnen. People who have never known Jesus and who have never really been a part of the Body of Christ are beginning to

experience what faith is all about. and it is fun seeing God move in us and through us.

In 2015, we have even greater hopes for what God can do through us as new church. This year our ministry plan is focusing on three things: 1—praying more (letting God be responsible for His roll), 2—Making more disciples and being more visible in Brunnsbo (doing what God has called us to and taking responsibility for our roll), and 3—expecting more of God, which means that we take more risks because we trust in the work Christ is doing. These three aspects of our ministry plan are just the beginning of what we pray and hope to accomplish this year. Our longing for reaching new people is

growing more and more. The best part is experiencing the joy of new people being transformed by their new relationship with Jesus. We love our church and we love Brunnsbo, but nothing can surpass our love for God! Look at the smiling faces in the picture above and you can begin to see the kind of work Christ is doing with His church.

### Thanks & Prayer:

- Give thanks for the things mentioned above.
- Pray for the Alpha Class that is going on now. Pray that people come to faith.
- Pray for strength, perseverance and protection as we have been experiencing spiritual attacks. A lot of sickness, tiredness and stress.
